# AQUA SPECTRA

## THE TOTAL SKIN MANAGEMENT PLATFORM

Introducing the ultimate cleansing machine – a gentle yet powerful way to improve your skin's overall texture and look. The Aqua Spectra machine is a multi-step treatment that uses revolutionary technology, combining with hydro-microdermabrasion, hydro oxygen (O<sub>2</sub> - H<sub>2</sub>) jet spray, skin scrubber and cold hammer functions. It can effectively accelerate the metabolism of cells, using the healing powers of water to lift out impurities. It's gentle, cleanses pores, exfoliates, extract and treat the skin and promotes rejuvenation – leaving the skin hydrated and radiant.

Through the combined use of these six technologies the skin synergy platform is effectively able to treat all layers of skin and offer deep skin cleansing, exfoliation, long lasting hydration, skin tightening, wrinkle reduction, oxygen enrichment and skin cell nutrition.
